

# KEVIN DONNIGAN

DESIGNER/DEVELOPER

www.anythinggraphic.net  
kevin@anythinggraphic.net  
505.975.6684

Business & art graduate who loves creating visual communications for both print and web. I like reading too :-)

---

## EXPERIENCE

### **Freelance Graphic, Logo, & Website Designer/Developer**

*Anything Graphic / Jan. '10 - Present*

Anything Graphic is my business name as a freelancer with clients located all over the US with a wide array of projects for both print and web. I create print graphics such as small marketing materials to big banners and logos. I love creating custom websites (both designing & developing) using WordPress and CoreCommerce (e-commerce).

### **Graphic Designer / Web Developer**

*Sevence, LLC / Dec '10 - Present*

Like some peoples relationship status on Facebook; it's complicated. We started out with three companies, now we have seven (yes, I have that many e-mail addresses too). I create websites for our clients using our own custom CMS. I build theme-based websites for our smaller business packages all the way up to custom websites that look good and function on mobile devices with matching e-mail campaign designs.

### **Graphics Production Assistant**

*Flying Star Cafe & Satellite Coffee / Dec '07 - Dec '10*

Assisted the Marketing Department in graphic design and production to enhance and expand both company concept brands to Albuquerque, NM and its surrounding areas.

---

## EXPERTISE

Photoshop / Illustrator - 7 years

HTML & CSS - 6 years

jQuery - < 1 year

Prefer Mac, but will work with Windows

---
